What is PEP?

The Parenting Education Program is a class designed to educate adults about the many issues children face when their family situation changes. The programs train participants about how to help children adjust in a healthy way to divorce or living apart from a parent.

The program includes information about children's developmental stages, helping children adjust to parent separation, cooperative parenting, conflict management and dispute resolution techniques, guidelines for scheduling parent access, and stress reduction for children.

If you have children under age eighteen, you must participate in a parenting education program within sixty (60) days after a family case is filed in court. All parties involved in divorce, dissolution of a civil union, annulment, separation, custody or visitation cases are required by law to participate in a parenting education program. Both judges and family support magistrates have the authority to order your participation in the program.
